

synerzine™

SAFETY DATA SHEET

Benzothiazole

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

1. Identification

Product identifier

Product name *Benzothiazole*
 Product number *T720*
 Synonyms; trade names *Benzosulfonazole*
 CAS number *95-16-9*

Recommended use of the chemical and restrictions on use

Application *Laboratory chemicals, Manufacture of substances.*
 Uses advised against *No specific uses advised against are identified.*

Details of the supplier of the safety data sheet

Supplier *Synerzine*
5340 Highway 42
Ellenwood, GA 30294
(404) 524-6744
info@synerzine.com

Contact Person *James Elliott*

Emergency telephone number

Emergency telephone *INFOTRAC 1-800-535-5053 (Reference Contract # 102471)*

2. Hazard(s) identification

Classification of the substance or mixture

Physical hazards *Not Classified*
 Health hazards *Acute Tox. 3 - H301 Acute Tox. 3 - H311 Acute Tox. 4 - H332 Eye Irrit. 2A - H319 STOT RE 2 - H373*
 Environmental hazards *Aquatic Acute 3 - H402*

Label elements

Hazard symbols

Signal word

Danger

Hazard statements

H301+H311 Toxic if swallowed or in contact with skin.
H332 Harmful if inhaled.
H319 Causes serious eye irritation.
H373 May cause damage to organs (Blood, Blood system) through prolonged or repeated exposure.
H402 Harmful to aquatic life.

Benzothiazole

Precautionary statements	<p><i>P260 Do not breathe vapor/ spray.</i></p> <p><i>P261 Avoid breathing vapor/ spray.</i></p> <p><i>P264 Wash contaminated skin thoroughly after handling.</i></p> <p><i>P270 Do not eat, drink or smoke when using this product.</i></p> <p><i>P271 Use only outdoors or in a well-ventilated area.</i></p> <p><i>P273 Avoid release to the environment.</i></p> <p><i>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.</i></p> <p><i>P301+P310 If swallowed: Immediately call a poison center/ doctor.</i></p> <p><i>P302+P352 If on skin: Wash with plenty of water.</i></p> <p><i>P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing.</i></p> <p><i>P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.</i></p> <p><i>P312 Call a poison center/ doctor if you feel unwell.</i></p> <p><i>P314 Get medical advice/ attention if you feel unwell.</i></p> <p><i>P321 Specific treatment (see medical advice on this label).</i></p> <p><i>P330 Rinse mouth.</i></p> <p><i>P337+P313 If eye irritation persists: Get medical advice/ attention.</i></p> <p><i>P361+P364 Take off immediately all contaminated clothing and wash it before reuse.</i></p> <p><i>P405 Store locked up.</i></p> <p><i>P501 Dispose of contents/ container in accordance with national regulations.</i></p>
--------------------------	---

Other hazards

This substance is not classified as PBT or vPvB according to current EU criteria.

3. Composition/information on ingredients

Substances

Product name	<i>Benzothiazole</i>
CAS number	<i>95-16-9</i>
Chemical formula	<i>C7H5NS</i>
Composition comments	<i>Named component present at ≤100%.</i>

4. First-aid measures

Description of first aid measures

General information	<i>Get medical attention immediately. Show this Safety Data Sheet to the medical personnel.</i>
Inhalation	<i>Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Maintain an open airway. Loosen tight clothing such as collar, tie or belt. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing can take place.</i>
Ingestion	<i>Rinse mouth thoroughly with water. Give a few small glasses of water or milk to drink. Stop if the affected person feels sick as vomiting may be dangerous. Do not induce vomiting unless under the direction of medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Place unconscious person on their side in the recovery position and ensure breathing can take place. Maintain an open airway. Loosen tight clothing such as collar, tie or belt.</i>
Skin Contact	<i>It is important to remove the substance from the skin immediately. Take off immediately all contaminated clothing. Remove contamination with soap and water or recognized skin cleansing agent. Get medical attention.</i>
Eye contact	<i>Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes.</i>

Benzothiazole

Protection of first aiders *First aid personnel should wear appropriate protective equipment during any rescue. If it is suspected that volatile contaminants are still present around the affected person, first aid personnel should wear an appropriate respirator or self-contained breathing apparatus. Wash contaminated clothing thoroughly with water before removing it from the affected person, or wear gloves. It may be dangerous for first aid personnel to carry out mouth-to-mouth resuscitation.*

Most important symptoms and effects, both acute and delayed

General information *See Section 11 for additional information on health hazards. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.*

Inhalation *A single exposure may cause the following adverse effects: Headache. Exhaustion and weakness.*

Ingestion *May cause stomach pain or vomiting. May cause severe internal injury.*

Skin contact *A single exposure may cause the following adverse effects: Pain.*

Eye contact *Irritating to eyes.*

Indication of immediate medical attention and special treatment needed

Notes for the doctor *Treat symptomatically. Keep affected person under observation.*

5. Fire-fighting measures

Extinguishing media

Suitable extinguishing media *The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.*

Unsuitable extinguishing media *Do not use water jet as an extinguisher, as this will spread the fire.*

Special hazards arising from the substance or mixture

Specific hazards *Containers can burst violently or explode when heated, due to excessive pressure build-up. This product is toxic.*

Hazardous combustion products *Thermal decomposition or combustion products may include the following substances: Very toxic or corrosive gases or vapors.*

Advice for firefighters

Protective actions during firefighting *Avoid breathing fire gases or vapors. Evacuate area. Keep upwind to avoid inhalation of gases, vapors, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify appropriate authorities.*

Special protective equipment for firefighters *Wear chemical protective suit. Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Standard Firefighter's clothing including helmets, protective boots and gloves will provide a basic level of protection for chemical incidents.*

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal precautions *No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in Section 8 of this safety data sheet. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material. Avoid inhalation of vapors and spray/mists. Use suitable respiratory protection if ventilation is inadequate. Avoid contact with skin and eyes. Avoid contact with contaminated tools and objects.*

Environmental precautions

Environmental precautions *Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment. Large Spillages: Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).*

Benzothiazole

Methods and material for containment and cleaning up

Methods for cleaning up

Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. Provide adequate ventilation. Approach the spillage from upwind. Small Spillages: If the product is soluble in water, dilute the spillage with water and mop it up. Alternatively, or if it is not water-soluble, absorb the spillage with an inert, dry material and place it in a suitable waste disposal container. Large Spillages: If leakage cannot be stopped, evacuate area. Flush spilled material into an effluent treatment plant, or proceed as follows. Contain and absorb spillage with sand, earth or other non-combustible material. Place waste in labeled, sealed containers. Clean contaminated objects and areas thoroughly, observing environmental regulations. The contaminated absorbent may pose the same hazard as the spilled material. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.

Reference to other sections

For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.

7. Handling and storage

Precautions for safe handling

Usage precautions

Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists. This product is toxic. Immediate first aid is imperative. Do not handle until all safety precautions have been read and understood. Do not handle broken packages without protective equipment. Do not reuse empty containers.

Advice on general occupational hygiene

Wash promptly if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Wash at the end of each work shift and before eating, smoking and using the toilet. Change work clothing daily before leaving workplace.

Conditions for safe storage, including any incompatibilities

Storage precautions

Store away from incompatible materials (see Section 10). Store in accordance with local regulations. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage. Utilize retaining walls to prevent soil and water pollution in the event of spillage. The storage area floor should be leak-tight, jointless and not absorbent.

Storage class

Toxic storage.

Specific end uses(s)

Specific end use(s)

The identified uses for this product are detailed in Section 1.

8. Exposure controls/Personal protection

Ingredient comments

No exposure limits known for ingredient(s).

Exposure controls

Protective equipment

Appropriate engineering controls

Provide adequate ventilation. Personal, workplace environment or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Use process enclosures, local exhaust ventilation or other engineering controls as the primary means to minimize worker exposure. Personal protective equipment should only be used if worker exposure cannot be controlled adequately by the engineering control measures. Ensure control measures are regularly inspected and maintained. Ensure operatives are trained to minimize exposure.

Benzothiazole

Eye/face protection	<i>Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Personal protective equipment for eye and face protection should comply with OSHA 1910.133. Wear tight-fitting, chemical splash goggles or face shield. If inhalation hazards exist, a full-face respirator may be required instead.</i>
Hand protection	<i>Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with OSHA 1910.138 and be demonstrated to be impervious to the chemical and resist degradation. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.</i>
Other skin and body protection	<i>Appropriate footwear and additional protective clothing complying with an approved standard should be worn if a risk assessment indicates skin contamination is possible.</i>
Hygiene measures	<i>Provide eyewash station and safety shower. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse. Clean equipment and the work area every day. Good personal hygiene procedures should be implemented. Wash at the end of each work shift and before eating, smoking and using the toilet. When using do not eat, drink or smoke. Preventive industrial medical examinations should be carried out. Warn cleaning personnel of any hazardous properties of the product.</i>
Respiratory protection	<i>Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Ensure all respiratory protective equipment is suitable for its intended use and is NIOSH approved. Check that the respirator fits tightly and the filter is changed regularly. Gas and combination filter cartridges should comply with OSHA 1910.134. Full face mask respirators with replaceable filter cartridges should comply with OSHA 1910.134. Half mask and quarter mask respirators with replaceable filter cartridges should comply with OSHA 1910.134.</i>
Environmental exposure controls	<i>Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.</i>

9. Physical and chemical properties

Information on basic physical and chemical properties

Appearance	<i>Clear liquid.</i>
Color	<i>Clear Yellow</i>
Odor	<i>Similar To Quinoline</i>
Odor threshold	<i>Not available.</i>
pH	<i>Not available.</i>
Melting point	<i>Not available.</i>
Initial boiling point and range	<i>233°C/451°F</i>
Flash point	<i>116°C/240°F Method: Closed cup.</i>
Evaporation rate	<i>Not available.</i>
Upper/lower flammability or explosive limits	<i>Not available.</i>
Vapor pressure	<i>Not available.</i>
Vapor density	<i>Not available.</i>
Relative density	<i>Not available.</i>
Solubility(ies)	<i>Not available.</i>
Partition coefficient	<i>Not available.</i>

Benzothiazole

Auto-ignition temperature	<i>Not available.</i>
Decomposition Temperature	<i>Not available.</i>
Viscosity	<i>Not available.</i>
Explosive properties	<i>Not available.</i>
Oxidizing properties	<i>Not available.</i>
Molecular weight	135.2 g/mol

10. Stability and reactivity

Reactivity	<i>See the other subsections of this section for further details.</i>
Stability	<i>Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.</i>
Possibility of hazardous reactions	<i>No potentially hazardous reactions known.</i>
Conditions to avoid	<i>There are no known conditions that are likely to result in a hazardous situation.</i>
Materials to avoid	<i>No specific material or group of materials is likely to react with the product to produce a hazardous situation.</i>
Hazardous decomposition products	<i>Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Toxic gases or vapors.</i>

11. Toxicological information

Information on toxicological effects

Acute toxicity - oral	
Summary	<i>Toxic if swallowed.</i>
Acute toxicity oral (LD ₅₀ mg/kg)	178.0
Species	<i>Rat</i>
ATE oral (mg/kg)	178.0
Acute toxicity - dermal	
Summary	<i>Toxic in contact with skin.</i>
Acute toxicity dermal (LD ₅₀ mg/kg)	933.0
Species	<i>Rat</i>
ATE dermal (mg/kg)	933.0
Acute toxicity - inhalation	
Summary	<i>Harmful if inhaled.</i>
Acute toxicity inhalation (LC ₅₀ dust/mist mg/l)	5.0
Species	<i>Rat</i>
ATE inhalation (dusts/mists mg/l)	5.0
Skin corrosion/irritation	
Summary	<i>Based on available data the classification criteria are not met.</i>
Serious eye damage/irritation	
Summary	<i>Causes serious eye irritation.</i>
Respiratory sensitization	

Benzothiazole

Summary	<i>Based on available data the classification criteria are not met.</i>
Skin sensitization	
Summary	<i>Based on available data the classification criteria are not met.</i>
Germ cell mutagenicity	
Summary	<i>Based on available data the classification criteria are not met.</i>
Carcinogenicity	
Summary	<i>Based on available data the classification criteria are not met.</i>
Reproductive toxicity	
Summary	<i>Based on available data the classification criteria are not met.</i>
Specific target organ toxicity - single exposure	
Summary	<i>Based on available data the classification criteria are not met.</i>
Specific target organ toxicity - repeated exposure	
Summary	<i>May cause damage to organs through prolonged or repeated exposure.</i>
Aspiration hazard	
Summary	<i>Based on available data the classification criteria are not met.</i>
General information	<i>The severity of the symptoms described will vary dependent on the concentration and the length of exposure.</i>
Inhalation	<i>A single exposure may cause the following adverse effects: Headache. Exhaustion and weakness.</i>
Ingestion	<i>May cause stomach pain or vomiting. May cause severe internal injury.</i>
Skin Contact	<i>A single exposure may cause the following adverse effects: Pain.</i>
Eye contact	<i>Irritating to eyes.</i>
Route of exposure	<i>Ingestion Inhalation Skin and/or eye contact</i>
Target Organs	<i>No specific target organs known.</i>

12. Ecological information

Acute aquatic toxicity	
Summary	<i>Based on available data the classification criteria are not met.</i>
Acute toxicity - fish	<i>LC₅₀, 96 hours: 39 mg/l, Oryzias latipes (Red killifish)</i>
Acute toxicity - aquatic invertebrates	<i>EC₅₀, 48 hours: 0.62 mg/l, Daphnia magna</i>
Acute toxicity - aquatic plants	<i>EC₅₀, 72 hours: 48.7 mg/l, Desmodemus subspicatus</i>
Acute toxicity - microorganisms	<i>EC₅₀, 3 hours: 635 mg/l, Activated sludge</i>
Chronic aquatic toxicity	
Summary	<i>Based on available data the classification criteria are not met.</i>
Persistence and degradability	
Persistence and degradability	<i>The degradability of the product is not known.</i>
Bioaccumulative potential	
Bio-Accumulative Potential	<i>No data available on bioaccumulation.</i>
Partition coefficient	<i>Not available.</i>
Mobility in soil	
Mobility	<i>No data available.</i>

Benzothiazole

Other adverse effects

Other adverse effects *None known.*

13. Disposal considerations

Waste treatment methods

General information *The generation of waste should be minimized or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. Disposal of this product, process solutions, residues and by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any local authority requirements. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.*

Disposal methods *Do not empty into drains. Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labeled with their contents. Incineration or landfill should only be considered when recycling is not feasible.*

14. Transport information

General *For limited quantity packaging/limited load information, consult the relevant modal documentation using the data shown in this section.*

UN Number

UN No. (TDG)	2810
UN No. (IMDG)	2810
UN No. (ICAO)	2810
UN No. (DOT)	UN2810

UN proper shipping name

Proper shipping name (TDG)	TOXIC LIQUID, ORGANIC, N.O.S. (Benzothiazole)
Proper shipping name (IMDG)	TOXIC LIQUID, ORGANIC, N.O.S. (Benzothiazole)
Proper shipping name (ICAO)	TOXIC LIQUID, ORGANIC, N.O.S. (Benzothiazole)
Proper shipping name (DOT)	TOXIC, LIQUIDS, ORGANIC, N.O.S. (Benzothiazole)

Transport hazard class(es)

DOT hazard class	6.1
DOT hazard label	6.1
TDG class	6.1
TDG label(s)	6.1
IMDG Class	6.1
ICAO class/division	6.1

Transport labels

DOT transport labels

Benzothiazole

Packing group

TDG Packing Group	III
IMDG packing group	III
ICAO packing group	III
DOT packing group	III

Environmental hazards

Environmentally Hazardous Substance
No.

Special precautions for user

Always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

EmS F-A, S-A

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable.

H373 May cause damage to organs (Blood, Blood system) through prolonged or repeated exposure.
H402 Harmful to aquatic life.

End of Safety Data Sheet

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
